To all our Glen Waverley Uniting Church family and wider worship friends
- Our broadcast challenges.

We have been blessed to have the worship streaming and broadcast facilities for over 12 years, which has enabled us to manage the transition to pandemic lockdown services more easily than many places. Many people in our congregation have stepped up and helped in such wonderful ways.

It has also meant that we have sometimes stretched our technology to its edges to deliver this weekly, live, worship.

Other places pre-record their worship, avoiding the hiccups we sometimes experience, but we believe our live worship, with inserted pre-recorded and past elements from you, is a key benefit to providing both timely and relevant worship.

The consequence of this however, is that from time to time the live worship can be impacted when the system decides to be a little uncooperative. Parts of our broadcast hardware facilities are over 8 years old, and we push them very hard. Some of you may be surprised to know that Synod paid for most of the technology we use, over 10 years ago, so the cost to the GWUC congregation to maintain the system has been kept to a minimum.

We appreciate your understanding when hiccups occur and assure you that we are working to resolve these as best we can.

The ministry and other support teams of many people are wonderful in adapting when needed.

As we have said to other congregations who have joined us over the years, "it is our live worship they receive, *warts and all*", to which they often respond - "That is what we like about it, as it is just like our own worship, challenging in many ways".

So I wanted to assure you, we are aware of and attentive to the issues you sometimes see, and we appreciate the supportive and understanding feedback we get. Thank you. Keep safe.
